Bits Wall

Design Anya Sebton

Den triangulära formen på Bits Wall ger inte bara ett estetiskt tilltalande uttryck, utan bryter också effektivt ljudvågor, vilket skapar en bättre ljudmiljö.

Using a triangular shape not only produces an aesthetically attractive look, but also effectively breaks the sound waves, which makes a better acoustic environment.

Den ljudabsorberande panelen är tillverkad av polyesterfiber och täckt med tyg.

The sound absorbent panel is made from moulded polyester fibre and covered with fabric.

Produkten monteras med dolda hängande beslag mot vägg, vilket gör att panelen både kan hänga horisontellt och vertikalt.

The product is mounted using concealed hanging rails, allowing the panels to be hung either horizontally or vertically.

Systemets modulära konstruktion gör att Bits Wall kan monteras i precis den storlek som användaren kräver.

The system's modular construction means that Bits Wall can be assembled to whatever size the user requires.

Teknisk information/Technical information

ca 1x1 m = 6 Bits Wall

ca 2x2 m = 22 Bits Wall

A close-up, low-angle shot of a modular sofa's corner. The sofa is covered in a textured, wool-like fabric in three colors: a bright teal, a dark grey, and a light beige. The lighting highlights the soft texture and the way the fabric is draped over the sofa's form.

Väggpanel/Wall panel/Wandpaneel

Domos dynamiska visuella uttryck uppstår i samspel med ljuset och skuggorna som bildas av skärmarnas fasade kanter. Lösningen är lika enkel som effektfull.

Domo's dynamic visual expression arises in the interplay with the light and shadows formed by the bevelled edges – a solution as simple as it is striking.

Domos dynamischer visueller Ausdruck entsteht aus dem Spiel von Licht und Schatten, gebildet durch die angeschrägten Kanten der Trennwände. Diese Lösung ist ebenso einfach wie effektvoll.

Väggpanel/Wall panel/Wandpaneel

Med Domo finns det utrymme för lekfulla kombinationer av olika kulörer och storlekar.

Domo offers scope for playful combinations of various colours and dimensions.

Mit Domo ergibt sich Raum für die spielerische Kombination verschiedener Farben und Größen.

Teknisk information/ Technical information/Technische Informationen

Domo – för en harmonisk arbetsmiljö

Med enkelhet och omsorg om detaljen möter Domo den moderna arbetsplatsens behov av både kreativa möten och möjligheten att arbeta koncentrerat utan att avbrytas. Skärmen inramas av en elegant fasning, som kommer till sin fulla rätt när skärmarna kombineras med varandra. Serien inkluderar bordsskärmar, golvskärmar och väggpaneler. Skärmarna finns med både raka och rundade hörn. Till skärmarna finns även en magnetbärande tillbehörslist i vitlackerad plåt. Tre tillbehör finns till listen i vit ABS plast.

Skärmens ljudabsorberande fyllning är monterad inuti en solid träram, som är täckt av textil. Bordsskärmens beslag är gjorda i blankpolerad aluminium. Väggabsorbenten fästs med dolda beslag.

Domo – for a harmonious working environment

Thanks to simplicity and attention to detail, Domo meets the modern workplace's requirements for creative meetings and the ability to work undisturbed. The screens are framed by elegant bevelling, which comes into its own when the screens are combined. The series includes wall panels, table screens and floor screens – all with straight or rounded corners. There is also a magnetic bearing accessory list in white painted steel. There are three different accessories to the list in white ABS plastic.

The screen's sound-absorbent filling is mounted inside a solid wood frame, which is upholstered in fabric. The table fittings are made of polished aluminium. The wall absorbent is mounted using concealed brackets.

Domo – für eine harmonische Arbeitsumgebung

Mit Klarheit und Sorgfalt in den Details entspricht Domo den Anforderungen des modernen Arbeitsplatzes, sowohl kreative Begegnungen zu ermöglichen als auch ohne Unterbrechungen konzentriert arbeiten zu können. Die Trennwand wird von einer eleganten Anschrägung umrahmt, die zur vollen Entfaltung kommt, wenn Trennelemente miteinander kombiniert werden. Die Reihe umfasst Wandpanele sowie Stell- und Tischtrennwände, alle mit geraden oder runden Ecken.

Die Trennwand besteht aus einer schallabsorbierenden Akustikfüllung in einem stabilen Holzrahmen, der mit Stoff bezogen ist. Die Befestigungsklemmen sind aus blank poliertem Aluminium gefertigt. Die Wandabsorber werden mittels versteckter Beschläge befestigt.

Sahara

Design: Gabriel Tan

abstracta

Sahara

Design: Gabriel Tan

The Sahara panel created by Gabriel Tan is made of cork, a natural material with excellent acoustic properties.

As simple and spontaneous as a sand formation carved by the wind, its shape is the perfect starting point for creating a multitude of patterns – from the asymmetrical to the symmetrical, from geometrically strict configurations to dynamic, random formations reminiscent of sand dunes.

Tips from Abstracta!

Experiment with different arrangements and change things around. Create your own visual effect!

Materials and Sustainability

Sahara is made out of waste material from the production of wine corks at a factory in Portugal.

Cork production occurs in harmony with nature; indeed, it helps to preserve Portugal's beautiful groves and forests of cork oaks.

- No emissions to air, water or soil take place at Abstracta's factory during the production of the Sahara.
- Incoming material in the Sahara meets the environmental requirements of furniture.
- All materials in the Sahara are recyclable, either as material or energy.
- The outdated product is dismantled and left at the recycling centre.

Sahara is manufactured according to technical, environmental and production ethical requirements.

Scala Wall

Design: Anya Sebton

abstracta

Scala Wall

Design: Anya Sebton

Scala is a complete series of screens, which can be mounted on walls, hung from the ceiling, and is also available as free-standing floor screen, table screen, and hanging room divider.

The design of the sound-absorbent Scala is not only developed for visual reasons, but primarily to contribute to a softer soundscape.

The wall-mounted version of Scala is available in different sizes. Portrait or landscape format, to be hung on hidden wall brackets.

Scala XL

Design Anya Sebton

abstracta

Scala XL

Design Anya Sebton

We're happy to introduce Scala XL – an enlarged version of Anya Sebton's influential soundabsorbent Scala. Scala XL is developed to improve the soundscape in large and noisy spaces such as assembly halls, auditoriums, lobbies, and shopping malls.

Specifications

Scala XL's interplay of shape and material has a powerful sound absorbing effect (Class A). The increase of size not only amplifies its acoustic capacity, but also affects its aesthetic qualities. Scala XL is available in two different versions: concave and convex shape.

Sky Wall

Design: Stefan Borselius

The Sky Wall modular system makes it possible to liven up spaces by simple means and radically change their look while dampening noise at the same time.

The extent to which you transform the space is determined by how you arrange the modules and which colour or colours you choose.

Absorption

Diffusion

Measurements WxHxD (mm)

846 x 591 x 120 mm.

Absorption

Absorption $\alpha_w=0,90$

Class A according to ISO11654

N10=31 evaluated according to ISO20189

Tips from Abstracta! Unique visuals + functionality!

Arranging the modules in clusters creates undulating patterns evocative of cloud formations. Like clouds, the clusters set one's thoughts in motion.

Sky Wall is also fitted with magnets that attach to metal plates bolted to the wall.

Materials and sustainability:

Sky is manufactured according to technical, environmental and production ethical requirements.

No emissions to air, water or soil take place at Abstracta's factory during the production of Sky.

All materials in Sky are recyclable, either as material or energy.

Sky meets the environmental requirements of "Möbelfakta".

All materials in Sky are recyclable, either as material or energy.

Worn out products are dismantled and transported to a recycling station.

abstracta

Triline Wall

abstracta

www.abstracta.se

Triline Wall

Design Anya Sebton

Trilines vinklar är mer än ett estetiskt ställningstagande; formen i sig adderar akustiska egenskaper.

The angled shape of Triline is not only an aesthetic statement; it also adds extended acoustic qualities.

Den dolda monteringen som används gör det möjligt att hänga panelerna antingen vågrätt eller lodrätt.

The Triline Wall panel uses hidden mounting bars that allow the panel to be hung either horizontally or vertically.

Väggpanelens triangelformade sektioner förhindrar ljudvågorna från att studsa direkt tillbaka

The three-dimensional triangular section of the wall panel prevents the sound waves from bouncing straight back.

Placera väggpanelerna sida vid sida för ett stilfullt reliefmönster och lek med de olika färgerna.

Arrange the wall panels next to each other for a stylish relief pattern, and play around with the different colour expressions available.
